Total Samples

359

Samples by Sold As Drug Type

*Only drugs from above considered here

Keep In Mind:

- Drug checking may not detect all substances, especially in small amounts
- Fillers and cuts may not be reported or detected
- These numbers should not be interpreted as representing the local drug supply

Use safer practices when you can (carry naloxone, start low, go slow, use the buddy system)

Definitions: Expected drug/drug type not present, a sample contained none of the drug or drug type it was sold as; Expected drug/drug+ other major drug/drug type, a sample contained the drug type it was sold as and another drug or drug type of interest; Expected drug/drug type only, a sample contained the drug or drug type it was sold as and no other drugs of interest
