

# Substance Use Treatment Perceptions and Experiences Among Men Who Have Sex with Men Who Use Crystal Methamphetamine

March 25, 2020 | 12:00-1:00pm (PT)

## About the webinar

Crystal methamphetamine use is growing increasingly common among men who have sex with men (MSM) in the northeastern U.S. and is an important public health concern. This webinar will share preliminary themes emerging from a qualitative study of MSM who use crystal methamphetamine. These themes present important lessons for treatment organizations looking to address crystal meth use among MSM.

**When:** Wednesday, March 25, 2020  
12:00-1:00pm (PT), 11:00am-12:00pm (AKT)
