

The Vital Role of Recovery Housing in the Continuum of Care

July 29, 2020 | 12:00-1:00pm (PT)

About the webinar

This webinar will discuss the unique attributes of recovery residences and how they change the odds in recovery success. Residences vary significantly in terms of level of care, recovery philosophy, and physical environment, but all offer much-needed support, accountability, and connection to people in all stages of recovery. While the COVID-19 crisis has presented complex challenges to recovery residences, people who live within are thriving in caring communities now more than ever. We'll discuss how providers have responded to the crisis and how residents have been making recovery work.

When: Wednesday, July 29, 2020
12:00-1:00pm (PT), 11:00am-12:00pm (AKT)

Presenter: Alan Muia, M.Ed

Cost: Free (*registration required*)

Technology: This webinar will use the [Zoom](#) platform. Instructions on how to connect will be provided by email when you register.

About the presenter:

Alan Muia, M.Ed came to the behavioral health field after an 18 year career in higher education, last serving as Dean of Student Services at Skagit Valley College in Mount Vernon WA. In 2011, he and his wife founded New Earth Recovery which currently operates four recovery residences in Skagit County WA. Alan is a founding member and current chair of the Washington Alliance for Quality Recovery Residences (WAQRR). WAQRR accredits recovery residences and provides a wide range of technical assistance to residence providers and other stakeholders. As a recovery residence provider, Alan is most engaged in his work in relapse prevention and conflict resolution.
