

# Medications for Opioid Use Disorders and Hepatitis C: Access and Adherence Among People Who Inject Drugs

June 26, 2019 | 12:00-1:00pm (PT)

## About the webinar

Hepatitis C virus is on the rise in rural communities of the U.S. This presentation will describe the syndemic of opioid use disorder (OUD) and hepatitis C (HCV). Dr. Tsui will present evidence showing the current gaps in treatment for OUD and HCV among persons who inject drugs. Based on analysis of current treatment methods and real-world patient living conditions, her presentation will also describe research on innovative models of care to improve treatment access and outcomes for persons with OUD and HCV.

1 CME credit available\*

## About the presenter

### Judith Tsui, MD, MPH

is an Associate Professor of Medicine, Division of General Internal Medicine, at the University of Washington School of Medicine. Dr. Tsui's research focuses on the intersection of opioid use disorders, pain, and related co-morbidities (hepatitis C and HIV). She is an internist who is also board certified in Addiction Medicine through the American Board of Addiction Medicine since 2013. As a clinician investigator, she seeks to elucidate complex relationships between substance use disorders and co-morbidities and to develop and test novel interventions to improve the lives of patients with addictions. Dr. Tsui also publishes in peer-reviewed journals and contributes to the popular press.
