

## **CLEARs: Co-Design Law Enforcement + Improved Interactions Session 2**

**Today's Purpose:** Working together we will identify additional stakeholders in the "system" and/or the community that can give us more information, perspectives, and wisdom to further our understanding and uncover blind spots. Once identified we will create a plan to engage those people through Learning Conversations. In Learning Conversations we will be asking these additional stakeholders about current challenges, opportunities, their perspectives, experiences, and possible solutions.

### **Today's Objectives:**

- Continue to build relationships across the co-design team
- Develop project talking points to support you in 1:1 Learning Conversations
- Map the greater system -
  - a. Current resources in the community
  - b. Stakeholders to engage and learn from, and
  - c. Identify who will go engage who
- Identify key questions to explore during learning conversations such as identifying challenges, barriers, opportunities, and solutions.

### **High Level Agenda for Today:**

- Welcome framing and flow of our shared work - sharing goals + purpose today
- Theory U - where are we on the journey?
- Check in / introductions for new folks
- Articulate Project Goal - improve understanding
- **Break**
- Map the current resources in the community
- Identify who to have learning conversations with
- Identify questions/inquiries to ask in learning conversations
- Identify who will talk to whom
- Next Steps - bringing your learning conversations back to the group for session 3
- Check out

**OVERALL Project Purpose:** To create solutions to improve interactions between Law Enforcement (LE: police, criminal legal system) and People with Living and Lived Experience of drug use (PWLE) that consider the challenges and opportunities of your unique community.

Examples from previous communities include, 1) developing and delivering an Officer Wellness Curriculum, 2) Videos that demonstrate success stories of PWLE + LE, 3) SPARK Letters - offering reentry support to those entering jails, 4) Forming an ongoing working group + collaborative - we are here to collectively pinpoint your local challenges + solution to test and go do it. But first, build relationships.

### **Overarching goals** for the entire project:

- Cultivate ongoing curiosity
- Build meaningful connections and relationships
- Learn about challenges others face in their position/role/lives
- Learn a new layer of the complexity of someone's humanity + lived experience that has been easy to overlook or ignore
- Increase capacity for hope
- Create relevant and meaningful solutions that address the local concerns, challenges, and opportunities
