Session 2 Learning Conversations Template

Section 1: Project Goals Statement + Additional Talking Points (what are we doing?)
Directions: Make edits and improve these statements, as needed.

<u>**DRAFT**</u> **PROJECT GOAL STATEMENT:**
The work of this project brings together people from our community with diverse and varied perspectives, who care about people using drugs and improving interactions with people in the criminal legal system.
Make changes to this statement to better reflect what YOU hope is created/built from this work.

<u>**DRAFT**</u> **Additional Talking Points**
- Our group has stakeholders from the County Sheriff's Office, X, Y, and Z police departments, and State Patrol; people with lived experience of substance use disorder and legal involvement, and X, Y, and Z service providers.
- We're meeting for the next few months to understand the local context, challenges, and opportunities, particularly with all of the changing laws around drug possession. We are also wondering what potential solutions you and others might have.
- We are hoping to understand the system from others working in it, like you, so I'm wondering if I can ask you some questions and learn about your perspective and what recommendations you might have?

Add more here:

Section 2 **Part A:** Who in the System do we want to engage in learning conversations? Part B: What questions do we want to ask specific stakeholders?

Directions: Add stakeholders from the map to the **Stakeholder Table** below - and determine the team member who will interview those stakeholders. This process will eliminate duplication. **Exercise: STAKEHOLDER TABLE - Identify stakeholders, formulate questions and enter responses when 1-1 learning conversations are complete.**

For session 3, we will review your Learning Conversations as a group. Please share your Learning Conversation Responses in the survey liked here: *ADD LINK*

(OR if you are having challenges email your stakeholder interview responses to the coordinator).

PART A **Name of Stakeholder/Who to contact** **Their demographic and organization, role (if applicable)** **Their contact info**	PART B **Key Questions for 1-1 conversations**	**Results, Key learnings, _quotes_ gleaned from interview** **_Learning Conversations: VOICES FROM THE FIELD_**
Example: **Jack Smith, Male, 29 years old, in recovery, 3 arrests** **someone with a history of substance use and recovery and LE interactions** 555-555-5555 jack@gmail.com	**What barriers exist for ppl who want to enter recovery?** **What services have had the greatest impact so far? How might we leverage what is working and do more of that?** **What gap in services do you see?** **What are your biggest concerns for others experiencing substance use + recovery challenges?**	**"The greatest challenge for us is not having access to supportive treatment."** **"Impactful Quotes"** **The essence of conversation** **Key takeaways**

	If you could fix the system to make it better, what would you do?	
Example: **Jane Frank** **Female, 39 years old, working with ppl currently using drugs, also in recovery** **555-555-5555** **Jane@gmail.com**	**What are the biggest challenges you see for people that use substances that have encounters with the judicial system confronting?** **If you were given any opportunity to improve the system, what would you hope for? What would you put in place**	"I wish I had better resources and partners in the community to help more ppl with Substance Use and Recovery challenges such as a one stop shop for all one would need to enter recovery long term" "Impactful Quotes"

Codesign Team Member Name: _____ **Region** _____

Stakeholders: Community members in recovery, Government Officials, Biz owners, Law Enforcement, Criminal Justice System, Service Providers, Community Organizations, etc.		
Name, demographic, organization/role, & contact	**Key Questions**	**Results, _quotes_ gleaned from interview**

Name, demographic, organization/role, & contact	Key Questions	Results, _quotes_ gleaned from interview

Name, demographic, organization/role, & contact	Key Questions	Results, _quotes_ gleaned from interview

Name, demographic, organization/role, & contact	Key Questions	Results, _quotes_ gleaned from interview

Be sure to submit Learning Conversation Responses (one response survey for each conversation): *ADD LINK*
*Link will be emailed as well.

Notes:
