

UW Law Enforcement Codesign - Virtual Cross- Region Check In

[Date]

Recording Today

Please email us if you want to be edited out of the video

Today

Purpose: Connect the regions for cross learning + updates on progress to date.

Objectives:

- **Report out updates on initiatives - key learnings, challenges, wins and surprises - what would you recommend to another site wanting to do something similar**
- **Reflections, Q+A dialogue**
- **Be inspired by each other and learn across each region**
- **Celebrate!**

Today's Flow

- Welcome Framing and Flow
- County #1 Report Out and Feedback
- County #2 Report Out and Feedback
- County #3 Report Out and Feedback
- Open Dialogue/Q+A
- Next Steps
- Check out

U-Process: 1 Process, 5 Movements

Our
approach:
where are
we? 4+5

1. Form a regional team and Id.
Focus Area:
uncover common intent
Partner with others that care about the
focus area

2. System Learning + Awareness:
Engage Community to Fast Track
Learning
connect with diverse people and places
to sense the system from the whole

3. Make Meaning:
Discover Potential Interventions
Work with community and colleagues to uncover what is needed
now; what data supports our interventions?

5. Scale what Works:
institutionalize the new in practices
Track data to see impacts

4. Co-creating:
prototype the new
experiment with living examples and
enact potential interventions

Why this approach?

Increasing outreach to glean *community voice regarding* what really matters, what challenges they see, what opportunities are possible now, what solutions they have and who else to engage.

Local Context + ***Community Inform the Solutions!***

“Everyone in a complex system has a slightly different interpretation. The more interpretations we gather, the easier it becomes to gain a sense of the whole.”

Margaret J. Wheatley

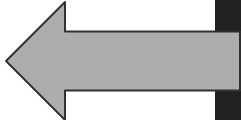

Feasibility

High

"Low hanging fruit" may be worth pursuing as quick-wins with relatively small demands.

These initiatives are the "sweet spot" – they give you the biggest bang for your buck

Identify the SWEET SPOT: High Impact + Easy to implement

Low

Difficult to implement initiatives with little potential impact are rarely worth selecting.

Bold initiatives will likely mean taking on a few of these initiatives to reach your target (high risk, high reward)

Low

High

Potential Impact

Process for reporting out and feedback Each Site 20 min

Each Site will have **10 min report out** their updates on initiatives to date, then we will open it up for **10 min of feedback, Q+ A**

Order of sites to report out:

1. County #1
2. County #2
3. County #3

At the end we will have some time for open dialogue.

Q+A Dialogue

Next steps

- *Ideas for future replication
- *Want to be involved?
